A few words to introduce an high level musical landscape project by Pablo Madoz from Spain debuting on batenim with a new digital ep "Matina" with four clean, linear, surreal and abstract atomospheres in a magic suspension dream. The artist with a few words tells about himself: "Three years ago I started with the world of music-landscapes. Previously my creative production was directed to the world of poetry and the graphics. But I found in the sound made by synths a way of expressing myself. This way brings me closer to other worlds that I can not reach otherwise".
